

Verified African

HAGUE EXPORT · CLIENT HANDOVER GUIDE

Every part of the website, explained simply.

Hague Export connects international buyers to CSC & NEPC-verified Nigerian exporters. We facilitate the export of various commodities with structured processes and a robust trust system. Our platform is engineered to simplify the export process for both parties.

Q: Where can I find the list of export products?

We built this platform to connect verified Nigerian exporters with serious global buyers. This visual guide shows what each section does — no long story.

VERIFIED EXPORTERS	COMMODITY CATEGORIES	DESTINATION COUNTRIES	VOLUME FACILITATED
480+	35	62	210K MT

32 real website screenshots

Buyer + exporter journeys

Prepared 27 September 2026

HOW TO USE THIS GUIDE

One image, one clear explanation.

Each screenshot is from the live Hague Export preview. Under every image, we explain the job of that feature in short Nigerian-style English, so anybody can understand the build sharp-sharp.

Four areas inside

1. Public website and marketplace
2. Buyer sourcing and RFQ tools
3. Exporter selling and verification tools
4. AI and human support

PART 1

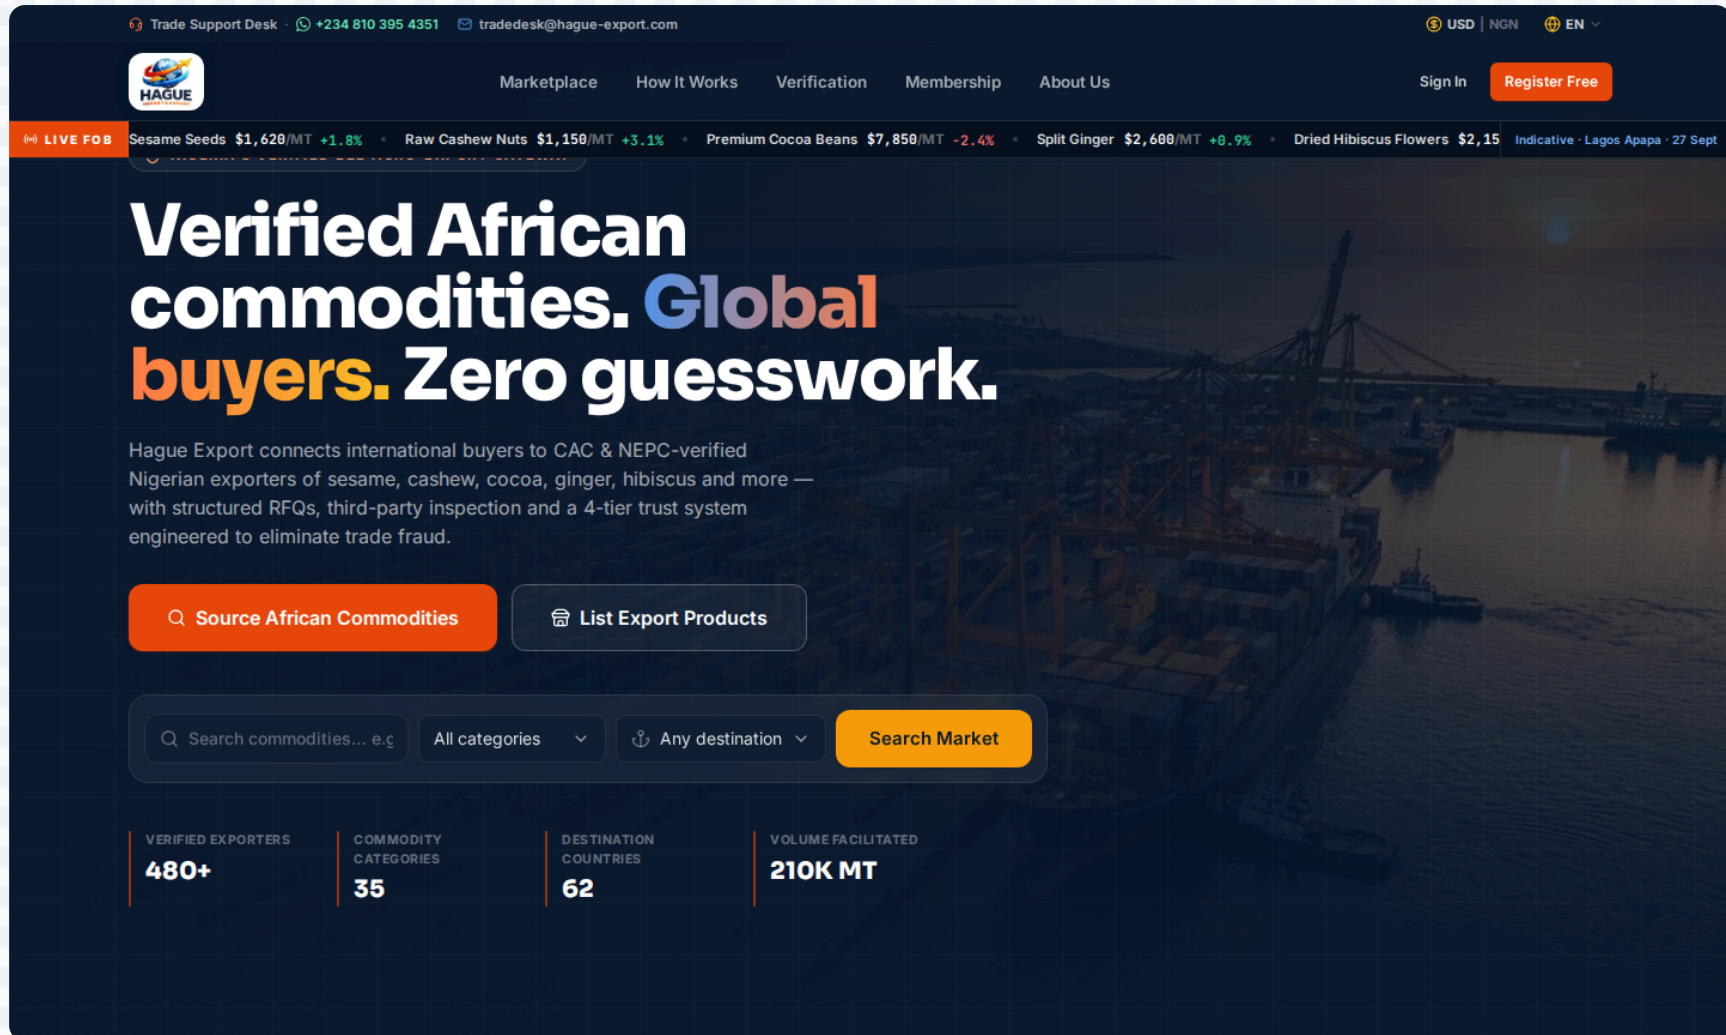

Public website & marketplace

This is the side everybody can see before sign-in. It introduces the business, builds trust and helps people find the right commodity.

01 · NAVIGATION

Top menu and quick contact

From here, visitors can move to the **Marketplace, How It Works, Verification, Membership and About** pages. Phone, email, currency and language controls are up there too, so help is never far.

02 • HOMEPAGE

Clear promise and fast search

This first section tells people exactly what we do: **verified African commodities for global buyers**. Buyers can search by commodity, category and destination, while exporters can jump straight to listing products.

WHY HAGUE EXPORT

The 4-tier trust system built to eliminate trade fraud

Cross-border agro trade fails on trust. Every supplier on Hague Export climbs a verification ladder — from basic identity checks to full international trade certification — so buyers know exactly who they're wiring money to.

• BRONZE

TIER 1

Basic Verification

- ✓ Registered account with verified email & phone
- ✓ Company profile with physical address
- ✓ One trade reference on file

• SILVER

TIER 2

Document Verified — CAC / NEPC

- ✓ CAC certificate of incorporation (RC number validated)
- ✓ Valid NEPC exporter registration certificate
- ✓ Tax Identification Number (TIN) matched

• GOLD

TIER 3

Site Inspection Verified

- ✓ Physical warehouse / processing facility inspection
- ✓ Quality control process audit (HACCP-aligned)
- ✓ Minimum 3 completed trade references

• PLATINUM

TIER 4

International Trade Certified

- ✓ Annual compliance re-audit by third-party surveyor
- ✓ International certification (ISO 22000 / Organic / FairTrade)
- ✓ Clean 24-month dispute record

Explore the full verification framework →

Hi! I'm Kemi — ask me anything ✨

03 • TRUST

Bronze to Platinum verification

This is the backbone of the platform. Each badge shows the level of checks completed — from basic identity to CAC/NEPC documents, site inspection and international certification. So buyer no dey send money blindly.

04 · STOCK

Featured export commodities

Live product cards show the **FOB price, price movement, grade, MOQ, origin, badge and packaging**. A buyer can request a quote or use WhatsApp without stress.

HOW IT WORKS

From search to shipped in four structured steps

A disciplined workflow replaces WhatsApp guesswork — structured RFQs, comparable quotes, certified inspection and documented contracts.

01

Search & Verify

Filter verified commodity listings by origin, grade and supplier badge. Every exporter is screened through our 4-tier trust system.

02

Submit RFQ

Send a structured Request for Quotation with volume, Incoterm, destination port and inspection requirements — in under 2 minutes.

03

Negotiate & Contract

Compare competing supplier quotes side-by-side, chat directly, and lock terms with Hague-standard sales contract templates.

04

Inspect & Ship

Third-party inspection (SGS / Bureau Veritas) at loading, documents checked, cargo tracked to your destination port.

[Read the full playbook for buyers & exporters →](#)

05 • PROCESS

Four-step trade flow

Search, submit RFQ, negotiate, then inspect and ship. The steps make the process easy to follow, even for a first-time buyer.

00 TRADE VOICES

Trusted on both sides of the trade lane

"We consolidated three sesame suppliers through Hague Export and cut our sourcing cycle from six weeks to nine days. The verification badges are the real deal."

Mehmet Yilmaz

Head of Procurement, Bosphorus Foods · Türkiye

"As a first-time buyer of Nigerian hibiscus, the Gold-tier inspection report gave our board the confidence to sign a 12-month supply contract."

Maria Fernanda López

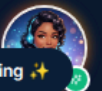

Director, Andina Botanicals S.A. · Mexico

"Within our first quarter on Hague Export we quoted 41 RFQs and shipped 2,300 MT of RCN. The buyer quality is unlike anything on open marketplaces."

Adaeze Okafor

MD/CEO, Sahel Prime Exports Ltd · Nigeria

Hi! I'm **Kemi** — ask me anything ✨

06 · PROOF

Real trade voices

11 · DISCOVERY

Search, filter and sort

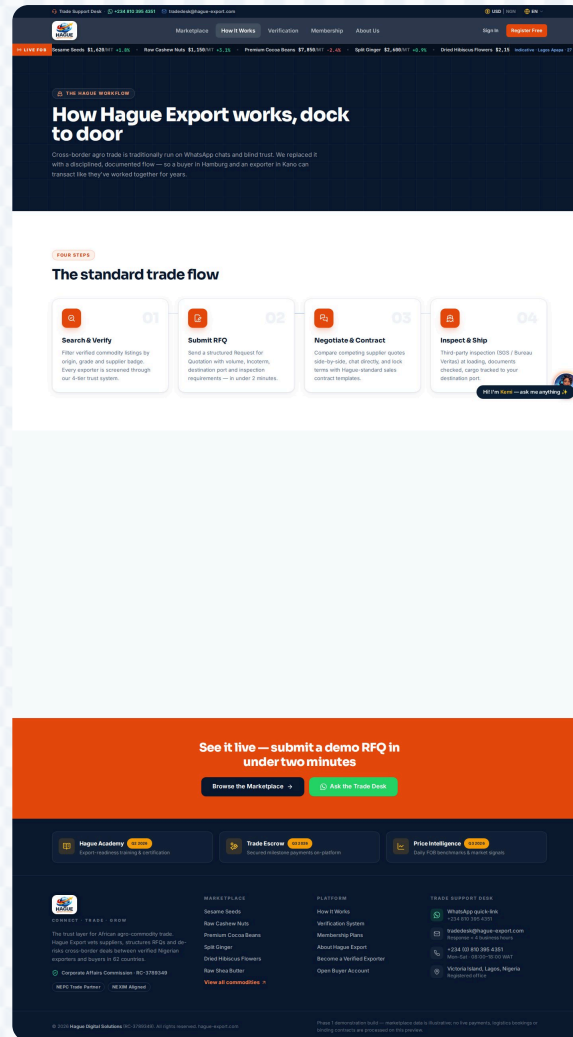

People can narrow the market by keyword, category, origin, badge level, MOQ and price, then sort the result. This one saves time when plenty products dey.

12 • PRODUCT PAGE

Full commodity specification

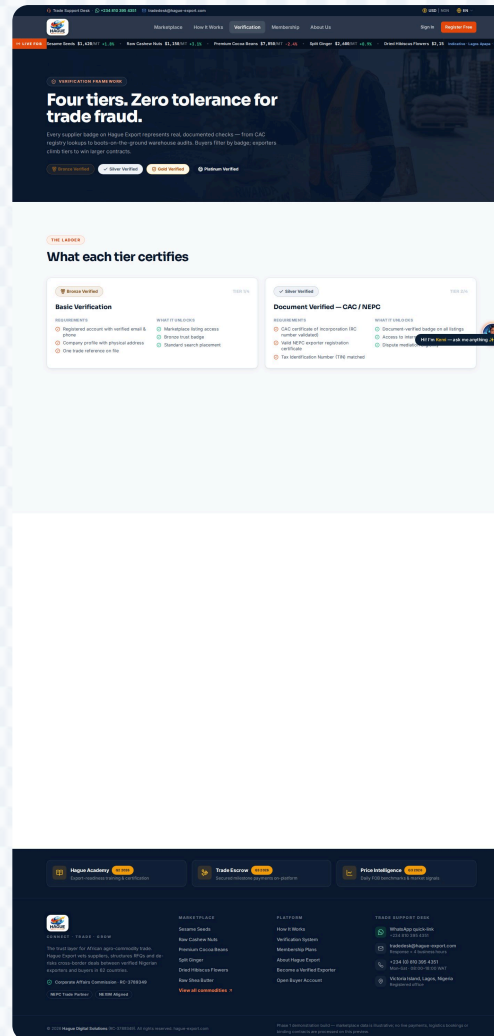

Each commodity page carries technical specs, season, packaging, loading capacity, verified suppliers, indicative price and trade terms. The buyer gets enough detail to make a serious RFQ, not guesswork.

13 • EDUCATION

How It Works page

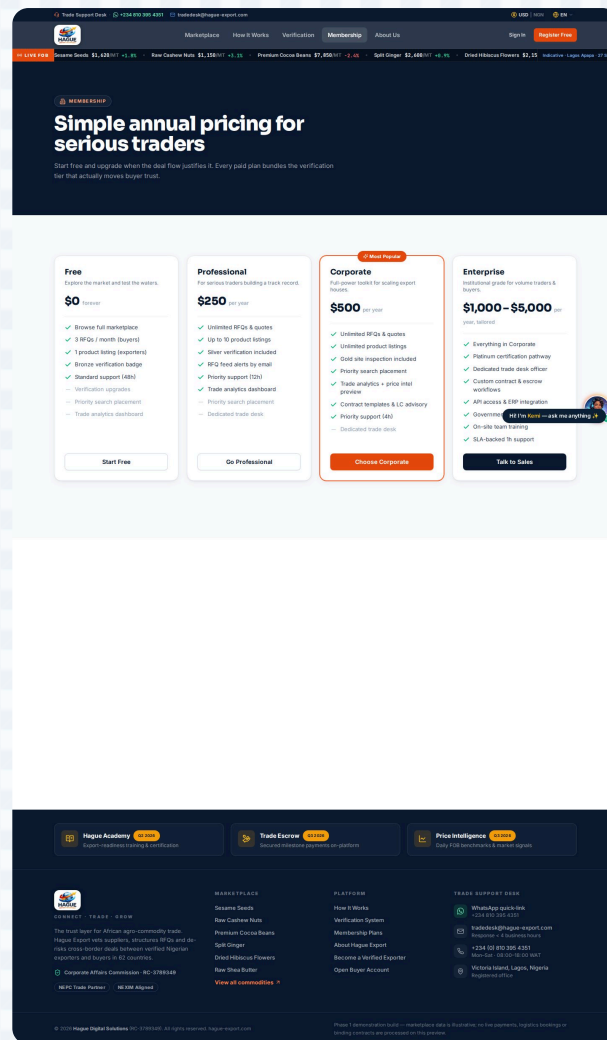

Buyer and exporter benefits are explained separately. Anybody can understand the journey before opening an account.

14 • COMPLIANCE

Verification framework

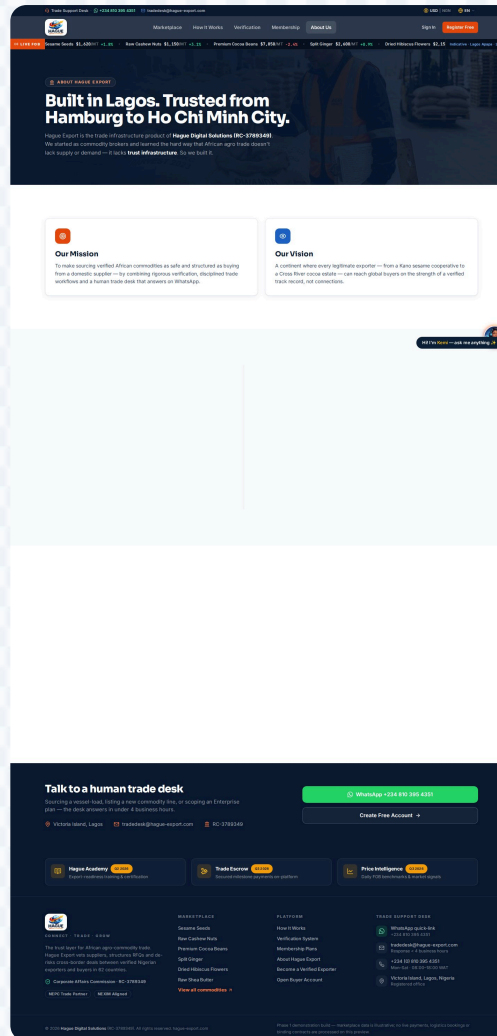

This page explains every badge requirement, what it unlocks and the six checks behind it. Trust is shown, not just promised.

15 • PRICING

Membership and FAQ

Full pricing sits with common billing questions. The client can see what starts now and what begins at production launch.

16 • COMPANY

About, team and roadmap

The business story, mission, leadership, partners and roadmap are clear here. It makes Hague Export feel like a real company, not one random marketplace.

Phase 1 demonstration build — marketplace data is illustrative; no live payments, logistics bookings or
binding contracts are processed on this preview.

28 · FOLLOW-UP

Sent quote tracking

Every offer stays recorded with price, terms, lead time, validity and status. Nobody needs to ask, “Which price did we send again?”

29 · PROGRESS

Verification journey

The exporter can see completed checks, current Gold tier and what remains for Platinum. The upgrade path is clear, and stronger verification can unlock bigger buyers.

Send a professional quote

The form calculates total contract value from the unit price. It also records Incoterm, lead time, validity and notes before sending to the buyer.

PART 4

AI & human support

Users can get quick answers from Kemi and still reach the human trade desk by WhatsApp, phone or email.

32 • KEMI AI Trade help on every page

Kemi answers questions about prices, RFQs and shipping time, with quick prompts to guide the user. WhatsApp support is beside it for any matter that needs a real person.

Important Phase 1 note:

This preview uses illustrative marketplace data. Live payments, escrow, logistics booking and binding contracts are not yet processed inside the demo. Those items are clearly marked as roadmap features, so we no go promise what never launch.

BUILD SUMMARY

Connect. Trade. Grow.

We built Hague Export as a trust layer for Nigerian agro-export: verified suppliers, structured RFQs, comparable quotes, clear dashboards and support from first search to shipment preparation.

Hague Export product walkthrough · prepared for client handover
